1. Participation in *Rebuild Kerala*- Making of *Chekutty Dolls*

Chendamangalam is a village popular for its looms, a lot of weavers have lived here for generations. The Handloom weavers at Chendamangalam in the Ernakulam district lost the only source of their livelihood when the floods inundated their weaving units and washed away all their stock and raw materials. In one unit alone approximate loss was calculated to be Rs 21 Lakhs. The only option was to burn the clothes and that was when two social entrepreneurs in Kerala decided to give the state Chekutty, a handmade doll that has become a symbol of hope to almost 600 weavers. The 'Chekutty' is an initiative by which dolls are made of soiled garments from the flood-hit looms of Chendamangalam in order to help the weavers to weave their life back. Chekutty making is done by volunteers and the profit made out of sales is transferred directly to the Society of weavers. The flood-affected Chendamangalam Handloom Society received support and help from several parts of the world by making and distributing Chekutty dolls made out of stained and torn handloom clothes from the flood-hit Chendamangalam. This was one among the successful strategies to combat the adverse situations and to rejuvenate their life, as part of the ***Unite Again to Rebuild Kerala*** initiative of the **Government of Kerala**. The amicable gesture from our College was to help the traditional handloom weavers at Chendamangalam to regain their lost glory whereby something can be done for the society. Our college fulfilled its social responsibility by training the NSS Volunteers for Chekkutty Doll making. **Mr. Unni**, a volunteer from **e-Malhar** conducted the training session. They provided the clothes from the flood affected weaver's village and the trained volunteers

PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

stitched it together to lend a helping hand to the weavers and thus became a part of the Chekutty campaign and Rebuild Kerala. Our students stitched 500 dolls and handed it over to the volunteers of E-Malhar for sale.

2. Institution's Innovation Council (IIC)

Ministry of Human Resource Development (MHRD), Govt. of India has established 'MHRD's Innovation Cell (MIC)' to systematically foster the culture of Innovation amongst all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are in formative years. MIC has envisioned encouraging the creation of 'Institution's Innovation Council (IICs)' across selected HEIs. A network of these IICs will be established to promote innovation in the Institution through multitudinous modes leading to an innovation promotion eco-system on the campuses.

Major Focus of IIC is:

- To create a vibrant local innovation ecosystem
- Start-up/entrepreneurship supporting Mechanism in HEIs
- Establish function ecosystem for scouting ideas and Pre-incubation of ideas
- Develop better Cognitive Ability amongst the students

Functions of Institution's Innovation Council:

- Promote innovation in the Institution through multitudinous modes leading to an innovation promotion eco-system in the campus
- To conduct various innovation and entrepreneurship-related activities in time bounded fashion
- Identify and reward innovations and share success stories Organize periodic workshops/ seminars/ interactions with entrepreneurs, investors, professionals and create a mentor pool for student innovators

PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

- Network with peers and national entrepreneurship development organizations
- Create an Institution's Innovation portal to highlight innovative projects carried out by institution's faculty and students
- Organize Hackathons, idea competition, mini-challenges etc., with the involvement of industry

K. S. M. D. B. College has a MHRD recognised **Institution's Innovation Council (IIC)** which functions as per the norms of the Government of India to create an ecosystem for innovation and cultivation of ideas among students and faculties to transform our graduates into job creators rather than job seekers. The IIC also acts as a nodal agency to coordinate the activities of Idea Lab, ED Club, various departments, clubs etc. The council also conducts programs such as workshops, seminars for entrepreneurship development and facilitates tools for technology development and its implementation. IIC motivates and facilitates student participation in young innovator's programmes. The council aims at the institutional focus of creating an eco-system including incubation centre and also provides infrastructural and technical support for establishment of start-ups. With these objectives the following programmes were organised by IIC.

SASTHAMCOTTA

critical mass of innovations by bringing out path-breaking strategic plans that reflect new directions in technology, product and process innovations, social shaping of technology and creating a healthy and conducive ecosystem. For this, K-DISC aims at appropriate institutional linkages to the selected innovations. As part of mobilising the academic partners, K-DISC had invited EOIs from leading academic institutions for their association with the ODOI program. A total of one hundred and one EOIs were received. An expert committee was constituted for overseeing the process. Based on the evaluation of the criteria published in EOI, sixty-three (63) institutions were shortlisted out of the one hundred one (101) EOIs received. After careful examination of the EOI submissions, institutions were indexed based on the criteria as per EOI. Among the selected institutions, our college belong to Class B within the district category represented by Department of Economics and in continuation with mentor development programs and review on potential clusters identified for detailed study and diagnostic report preparation by the institution for **Chathanoor handloom cluster, Kollam district**. The work has been started with five students per teacher.

4. Entrepreneur Development Club(E D Club)

The Department of Industries and Commerce, Government of Kerala, in association With Education Department formulated a scheme to set up “Entrepreneurship Development Clubs” in schools and colleges of the State to inculcate “Entrepreneurship Culture”, amongst youth and equip them with the skills, techniques and confidence to act as torch-bearers of “Enterprise” for the new generation.

Objectives of the Club are:

- To aware the students about the unlimited development potential of the State and to inculcate entrepreneurial culture in the students .
- To inculcate the basic elements of entrepreneurship such as hard work, honesty, dedication, discipline, integrity, trustworthiness, etc
- To bring in successful entrepreneur and students on a common platform.
- Organize interactive sessions with successful entrepreneurs from outside as well as within the State.
- To motivate members on various dimensions of industry to nurture the latent entrepreneurial talent.

Functions of the Club are:

- To organize workshops/debates, industrial visits to business enterprises within/outside the State.
- To interact with the promotional agencies.

PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

▪

- To expose to national and international events in various parts of the country related to industrial developments.
- To organize Entrepreneurship / Entrepreneur Awareness Programme.
- To familiarise the youths to the latest developments related to the field

The college has an E D Club registered in **District Industries Centre, Kollam**. With the above focus, the ED Club of K. S. M. D. B. College, Sasthamcotta had planned the following programmes.

6. Internet voting- Patented mobile internet voting System

Internet voting (i-voting) is an innovative idea whereby e-voting can be successfully accomplished. The voter can cast vote at home. Internet voting would reduce the cost effectively and can be used anywhere globally so that even overseas citizens can assure their participation in voting. A secure mobile internet voting system is designed for this purpose in which QR code and biometric of Aadhar cardis can be simply used for the authentication of the voter. One among the inventors is Dr. K. S. Anil Kumar who was the former Principal of KSM DB College, who is now on deputation as the Registrar, University of Kerala.

(57) Abstract :		
Abstract Internet voting(i-voting) is remote e-voting via the internet where the voter can cast votes at home or without going to a polling station. Internet voting reduces the cost and can be used from anywhere globally so traveling citizens and overseas voters can easily participate in elections. A secure mobile internet voting system is designed in which the QR code and fingerprint biometric of Aadhaar cardis used for the authentication of voter. The voter's public and private keys are generated using a biometric digital signature key generation algorithm. The voter first scans the QR code in the Aadhaar card and sent the scanned details to the Vote Forward Server(VFS). The eligible voter then authenticates to the VFS using the fingerprint biometric authentication provided by the Aadhaar card. The VFS sent the candidate list CL to the voter client application and the parameter q to the voter's mobile number. The VoterApp encrypts and digitally signs the i-vote and the parameter q and transmits it to the VFS. The VFS verifies the parameter q and forwards the vote to the Vote Storage Server(VSS), generates the vote reference, and sent it to the voter. The modified verification application doesn't display the candidate CL, so it doesn't violate the voter's secrecy. The encrypted parameter q is digitally signed using the server's private key before it is sent to the verification application to enhance security and avoid a bad verification attack. The VerifyApp scans the QR code and transmits the voterid to the Vote Storage Server. The VFS generates the hash of the encrypted vote, encrypts the parameter q using the encrypted vote hash, and sends the encrypted q and the candidate list to the VerifyApp. The VerifyApp encrypts the candidate list CL= {C1,C2, ...,Cm} and generate the hash of all possible encrypted votes of the candidate list. The encrypted parameter q is decrypted by using the hash of the encrypted candidate list and display the ordered value of Q={q1,q2,q3, ...,qpn} on the screen. The voter identifies the indices of the parameter q and the candidate c and verifies the vote cast. After the voter verifies the vote cast's precision, the parameter q is entered by the voter, and it is forward to the VFS. The transmit of parameter q to the VFS ensures that the voter verifies the vote using the genuine verification application and not by a fake verification application without the voter's knowledge.

7.Documentation of Invasive Alien Plant Species of Sasthamcotta Lake

Department of Botany has organized a documentation and analysis of **Invasive alien species of Sasthamcotta Lake**, under the supervision of Ms Dhanya S.R, Asst. Professor in Botany. A total number of 15 students of B. Sc Final year participated and got field experience and gained the knowledge of the impact of invasive alien species in the different areas of Sasthamcotta lakeside. A total of 24 species of invasive aliens of the terrestrial vegetation of Sasthamcotta lakeside have been documented. Our field observation and discussion with local people indicate that there are 6 most noxious invasive plant species in this region. Some species such as *Merrimia vitifolia*, *Mikania micrantha* and *Chromolaena odorata* are harmful to native species. **This is a first report about the invasive alien species of this lake side.**

experts from various discipline. The program was inaugurated by Prof. Dr. Sabu Thomas, Vice Chancellor of M. G. University, Kottayam. Hon'ble Higher Education minister Dr. K. T. Jaleel, Travancore Devaswom Board President Adv. Shri. N. Vasu, felicitated the function. There were presentations from eminent scholars in and around Kerala. Average participation of delegates were 160. During the last day of webinar there were a session on "Innovative and best practices in higher educational institutions" by Dr. Suju C. Joseph Assistant Professor, Department of Chemistry, Mar Ivanios College Thiruvananthapuram. The webinar series was concluded with a colourful valedictory session on 20/05/21.

Dept. of Computer Science
University of Central Florida

Topic
**A Gentle Introduction to
Computational Complexity Theory -
Revealing the Limits of Algorithms**

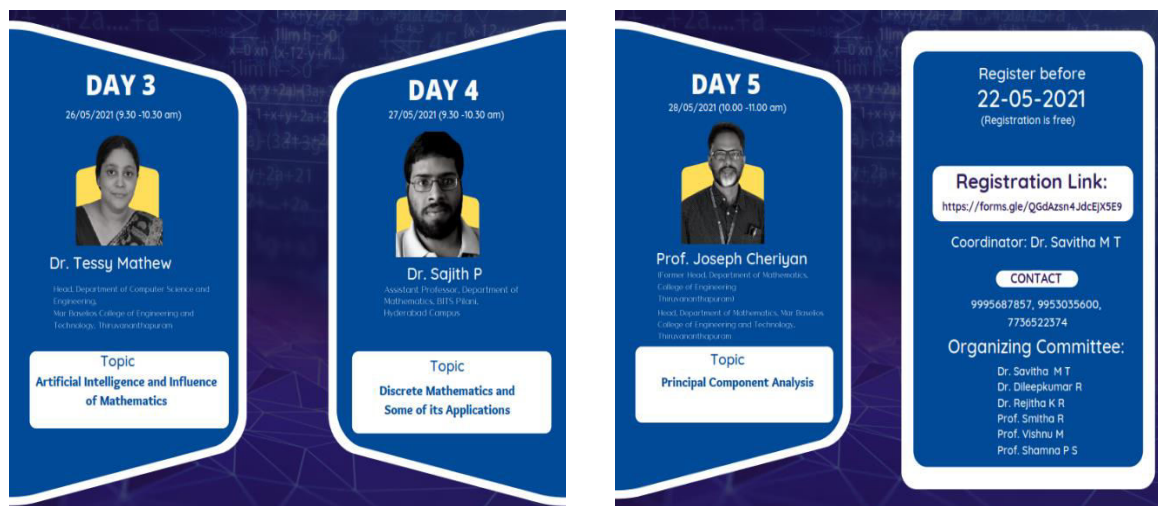

DAY 2
25/05/2021 (9:30 -10:30 am)

Dr. Fr. Eldho K Thomas
Assistant Professor, Department of
Mathematics, Newman College, Thiruvananthapuram
(Formerly Newman College, Thiruvananthapuram, Kerala)

Topic
**Batch Codes for Cloud
Storage: an Overview**

Beena
PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

The main objective of this five day workshop is to bring together the Experts, Faculty Members, Scientists, Research Scholars, PG students from Universities, Colleges, Scientific Organizations, and other Institutions of Higher Education from all over the country to discuss the recent trends and developments in the broad topics of the applied Mathematics and to promote exchange of ideas in various applications of mathematics in science and engineering. This workshop would provide an opportunity to young researchers to learn the current state of research & techniques.

Brief Report

Day 1: A Gentle Introduction to Computational Complexity Theory - Revealing the Limits of Algorithms

Resource Person: Dr. Sharma Thankachan, Assistant Professor, Dept. of Computer Science, University of Central Florida, Orlando.

Google Meet link: <https://meet.google.com/koq-sugf-nru>

The resource person explained how Complexity theory could be useful in determining the unsolvable problems. He also covered some interesting topics in area, including the famous "P vs. NP" problem.

Sharma Thankachan
PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

Day 2: Batch Codes for Cloud Storage: an Overview

Resource Person: Dr. Fr. Eldho K Thomas, Assistant Professor, Department of Mathematics, Newman College, Thodupuzha, Former research fellow in National University of Singapore and University of Tartu, Estonia.

Google Meet link: <https://meet.google.com/xxr-wzmr-kmk>

In the present talk, the speaker had introduced traditional batch codes, asynchronous batch codes, their properties, and coding bounds. In addition, he had discussed about two related families of codes called locally repairable codes (LRC) and codes for private information retrieval (PIR) which are extensively studied over the past few years. The talk was very informative and the audience got an overview of the above mentioned codes, their connections, and some potential applications in cloud storage.

Day 3: Artificial Intelligence and Influence of Mathematics

Resource Person: Dr. Tessy Mathew, Associate Professor & Head, Department of Computer Science and Engineering, Mar Baselios College of Engineering and Technology, Thiruvananthapuram.

Google Meet link: <https://meet.google.com/qnr-wgnw-net>

The resource person discussed the importance of Artificial intelligence in various field and sub areas and also about the ways in which it can be useful to create an acceptable model for human understanding. The talk also illustrated how Mathematics can enhance analytical thinking skills which are vital in Artificial intelligence and also its applicability to solve challenging deep abstract problems using traditional methods and techniques encompassing various fields such as Linear Algebra, Calculus, game theory, Probability, statistics, advanced logistic regressions, and Gradient Descent etc.

PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

Day 4: Discrete Mathematics and Some of its Applications

_Resource Person: Dr. Sajith P, Assistant Professor, Department of Mathematics, BITS
Pilani, Hyderabad Campus

Google Meet link: <https://meet.google.com/koq-sugf-nru>

The presentation discussed basic ideas of Discrete Mathematics and its relation with other areas in Mathematics, mainly Linear algebra and Abstract Algebra. Some important applications in computer science and signal processing (coding theory) were also discussed. The current discussion also included discussion of a typical Mathematics researcher's interests and challenges in this field.

Day 5: Principal Component Analysis

_Resource Person: Prof. Joseph Cheriyan, Professor & Head, Dept of Mathematics, Mar
Baselios College of Engineering and Technology, Thiruvananthapuram, (Former Head, Dept
of Mathematics, Govt Engineering College, Thiruvananthapuram)

Google Meet link: <https://meet.google.com/qjy-dicc-qcb>

Large data sets are increasingly used in many areas like image compression, computer vision, machine learning, finance, climate change etc. The large dimension of these data sets and the interdependence of various features in the data make it difficult to interpret and extracting useful information. The idea of Principal Component Analysis is to reduce the dimensionality of a dataset while preserving as much variability as possible. This means that a new set of uncorrelated variables are found that are linear combinations of those in the original data set that successively maximize the variance. In Principal Component Analysis, many ideas in Linear Algebra like orthogonal diagonalization, linear transformation, orthogonal projection, etc. are needed.

Faulty Development Programme Towards a Digital Era of Teaching Learning

Dates	12/08/2020 to 18/08/2020
-------	-----------------------------

The Covid-19 induced pandemic has forced to switch over to online teaching and learning. The universities and its teachers are grappling with enforced online teaching . With this the teaching fraternity has begun to face myriad challenges in the use of e-learning resources with professionalism. In this backdrop, IQAC of KSMD B College has designed various academic outreach to transcend the lock down barriers. In this regard, our College organised a one week Online Faculty Development Programme under the rubric **“Towards a Digital Era of Teaching and Learning”** in collaboration with **Human Resource Development Centre of the University of Kerala**. This programme was designed to familiarise teachers from different colleges and universities across the country with the different components of information technology for effective teaching and learning. The course was offered through moodle platform and the link shared via telegram. There were 1009 participants in this one week long programme.

PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

The topics covered

- Understanding online education and various LMS platforms
- Acquiring e-learning skills which can help in delivering online classroom sessions effectively
- Moodle platform in detail
- Digital tools which help in developing e-content

After successful completion of the programme, the participants were able to:

- Create interactive e-content for their discipline
- Conduct online classroom sessions with time-bound assessment mechanism
- Utilize time-saving extensions for better organisation of e-content.

SAMSKRITAJYOTHI
Part of Samskrita Mission

Brief Report

Department of Sanskrit has been able to turn the Sanskrit Day celebration on the full moon day of the month *Śrāvaṇa* into a two - week event called **Samskritaganga-2020** from 03rd to 16th August 2020. In the midst of the spread of the Covid-19 pandemic, the programmes were broadcasted through the Department's official Facebook group and

PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

Youtube channel- **Sanskritajyoti**. All the programs were focused entirely on Sanskrit language and under two sections viz., *Subhāṣita-mañjari* and *Viśva-samskr̥ta* Sanskrit programmes such as rendering of *Subhāṣita*, *Sandeśa-kathana*, *Samskr̥ta gānālāpana* and *Akṣaraśloka-pathadarśini* were performed. The Department also received good responses from audiences inside and outside the college.

Ramayana Sudha

Brief Report

Karkkidakam, the last month of Malayalam calendar has much significance in Kerala, both culturally and historically. In the past, majority of people depended on agriculture and the monsoon was at its peak during this month of extreme scarcity. It was customary to recite the epic Ramayana in homes and temples during this month all for 31 days. Ramayana recitation during this time was considered as an auspicious practice that would ensure the well being of the individual and the society. As this tradition carries on to the present time, it helps purifying the mind and sanitizing the illness of body, which in turn results spiritual purification of body and mind. In this context, our Department of Sanskrit has formulated an innovative approach named as ‘**Ramayanasudha**’ encompassing the annals by the recitation of Adhyatma Ramayana, exploration of Ramayana, critical evaluation of the characters in this epic and the message of Ramayana through the face book group ‘Sanskrita Jyothy’ of the department.

SAMSKRITAVAHINI - Intervention to enhance communicative skills in Sanskrit language mediated through WhatsApp.

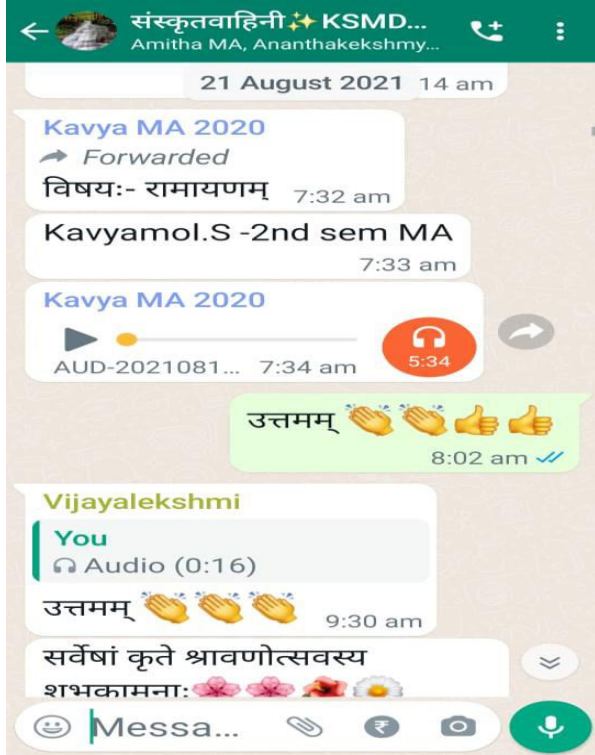

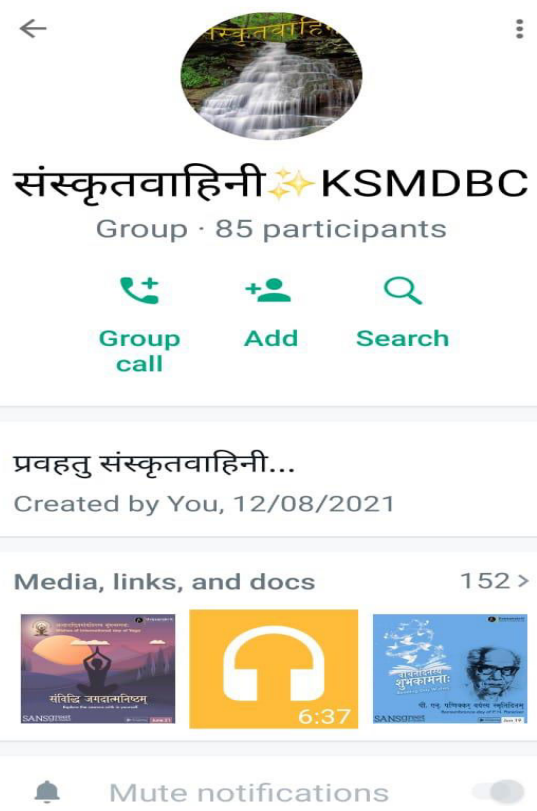

Brief Report

As part of the world Sanskrit day celebration in 2021, the department of Sanskrit has put a step forward to a new beginning. It was the creation of Samskritavahini WhatsApp group. The group was started on 12.08.2021 by Dr.Susmi Sabu, Assistant Professor, Department of Sanskrit with the intention to enhance communicative skills of Students in Sanskrit language especially for the regular students of the Department of Sanskrit. Every member of faculty is an admin of the group. From 20.8.2021, on the world sanskrit day- the auspicious sravana purnima day- samskritavahini whatsapp group started functioning.

Every Saturday, one of the Students from UG or PG posts an audio clip in the group. The audio will contain a short speech on a topic such as famous treatise, famous author, Sanskrit story, etc. Five minute long audio is prepared by the students themselves. Each and every student of the Department is free to be a part of Samskritavahini. Thus students can be get enough opportunity to enhance their skills to listen to Sanskrit, to speak and to write in sanskrit. Minor mistakes such as erroneous usage of grammar, pronunciation etc. are corrected by teachers time to time.

10. Inspiring Innovation: Nobel Laureate Jean-Marie Lehn in an interactive session

International Conference: Emerging trends in Computational and materials Chemistry (ICMMR – 20)

Most teachers and students worldwide often have little chance to meet Nobel Laureates, let alone the opportunity to interact with them. In such a situation, Department of Chemistry and Polymer Chemistry took an innovative initiative to evolve a platform for teachers and students to interact with a Nobel laureate. For this, an emerging field of indisputable current relevance in the pandemic era, Computational and materials chemistry and the Nobel Laureate in Chemistry in the year 1987, Prof. Jean- Marie Lehn was invited and he had inaugurated the international conference Emerging trends in Computational and materials Chemistry (ICMMR – 20) and delivered the key note address. He had interacted

PRINCIPAL
K.S.M.D.B COLLEGE
SASTHAMCOTTA

with the students and had a mutual exchange of ideas. He clarified the doubts of the participants. He also answered the questions raised by the participants. The session was very inspiring and informative.

KUMBALATHU SANKUPILLAI MEMORIAL DEVASWOM BOARD (KSMD B) COLLEGE, SASTHAMCOTTA, KERALA, INDIA
Affiliated to University of Kerala (Re-accredited with 'A' Grade by NAAC)

INTERNATIONAL CONFERENCE

09th-12th November 2020

On
EMERGING TRENDS IN
COMPUTATIONAL AND MATERIALS
CHEMISTRY RESEARCH (ICCMCR-20)

Organized by: Research and Post Graduate
Department of Chemistry and Polymer Chemistry

ABOUT THE COLLEGE

Kumbalathu Sankupillai Memorial Devaswom Board (KSMD B) College, situated at Sasthamcotta, Kollam, Kerala, is an esteemed institution for higher education managed by the Hon'ble Travancore Devaswom Board. This institution of higher learning was established in 1964 and is affiliated to the University of Kerala. The college is surrounded on three sides by the famous Sasthamcotta Lake, the largest freshwater lake of Kerala and a recognized Ramsar site. The college offers 17 undergraduate programmes, 6 post graduate programmes and 2 Ph.D programmes in various disciplines to a community of about 2500 students. KSMD B College has been selected under the RUSA 2.0 Scheme and the DBT-Star College Scheme 2019 viz: strengthening of support to science departments for UG education.

ABOUT THE DEPARTMENT

The Research and Post Graduate Department of Chemistry and Polymer Chemistry embarked on its long journey to glory during the academic year 1964-1965 with two teachers as staff imparting instructions in chemistry to the pre-degree students of groups I and II. The department was upgraded to degree level with Chemistry as an optional main in the year 1979 - 1980. In addition to B.Sc. Chemistry, B.Sc. Polymer Chemistry was also started during the academic year 1993-1994. The Department reached another milestone in the realm of higher education in the year 1995-1996 through the introduction of a post graduate programme in Chemistry with a sanctioned strength of 10 students. The department was instrumental for the successful completion of about 2000 Bachelor's and 300 Master's Degree holders so far. The academic year 2004-2005 should be etched in golden letters in the annals of the department. During that year the department was recognized as an approved research center by the University of Kerala thereby making it at par with the premier colleges in the state. There are 6 Ph.Ds to its credit till date. DST-FIST, UGC, KSCSTE, SARD and CSIR are among the funding agencies which have extended financial supports to procure sophisticated instruments and to accomplish research projects by faculty and students.

ABOUT THE CONFERENCE

The Organizing Committee of Research and P.G. Department of Chemistry & Polymer Chemistry, K.S.M.D.B College is pleased to invite participants from all over the world to take part in this international conference on 'Emerging Trends in Computational and Materials Chemistry Research' (ICCMCR-20) based on the theme "Contemporary Advances and Innovations in Computational and Materials Chemistry Research". This international conference aims to provide a forum for researchers from various areas of Materials Chemistry, Medicinal Chemistry and Computational Chemistry to present the latest cutting-edge research findings and share their experiences and research outcomes of interdisciplinary research. Each session of the conference will include expert lectures, paper presentations and discussions on computational and materials chemistry research.

11. Inspiring Innovation through Creative Thinking (IICT)

An innovative approach to spread and inculcate National integration – Department of Economics

Organization of important national/international days are spreading general awareness, nurturing the talents and inculcating innovative ideas of National integration among the students. In this stance, c. Department of Economics set up a new innovative model by making youtube video by a student on the particular day of observance both national and international.

Invited talk on Conformal Mapping

Date	12/03/2021
------	------------

Brief Report

As part of the *International Pi Day celebration*, the Department of Mathematics, KSMDB College, Sasthamcotta, conducted a special invited talk on Conformal Mapping. Conformal mapping has many applications in different physical situations like if the function satisfies harmonic equation and Laplace equation $\Delta^2 f$, then the transformation of these functions through conformal mapping is also harmonic. In this talk, he presented a brief introduction and the types of conformal mapping. With the help of this theory and its types, he discussed the applications and relations of conformal mapping with bilinear transformation in the complex plane.
